JAKOB HABERFELD STORY

In 1804 Simon Haberfeld founded a factory producing alcohol, which his son Jakob inherited from him and developed under the name Jakob Haberfeld – Steam Vodka and Liquor Factory in Oświęcim. It was a first industrial plant in the city and one of the three oldest alcohol producers in Poland. For many years the company developed dynamically, expanded the factory and enriched its offer with fruit juices. Alcoholic beverages produced in the factory had repeatedly been presented in international competitions, winning awards and recognition, so that they were successfully exported abroad.
